

Tips for Your Comfort and Safety

Do not cradle the handset.

Prolonged use of the handset can lead to neck, shoulder, or back discomfort, especially if you cradle the handset between your ear and shoulder. If you use your phone a lot, you may find it more comfortable to use a headset.

Protect your hearing. Your Mitel MiVoice 6940 IP phone has a control for adjusting the volume of the handset, headset, and speakerphone. Because continuous exposure to loud sounds can contribute to hearing loss, keep the volume at a moderate level.

Adjust the viewing angle. The stand for your Mitel 6940 IP phone supports two viewing angles (30° and 60°). Adjust the stand to suit your viewing preference.
